

# ***Innovation & Best Practices Enabling the Future of Healthcare***

**Atul Kanvinde**

October 16, 2018

---

What does  
Invention mean  
to you?

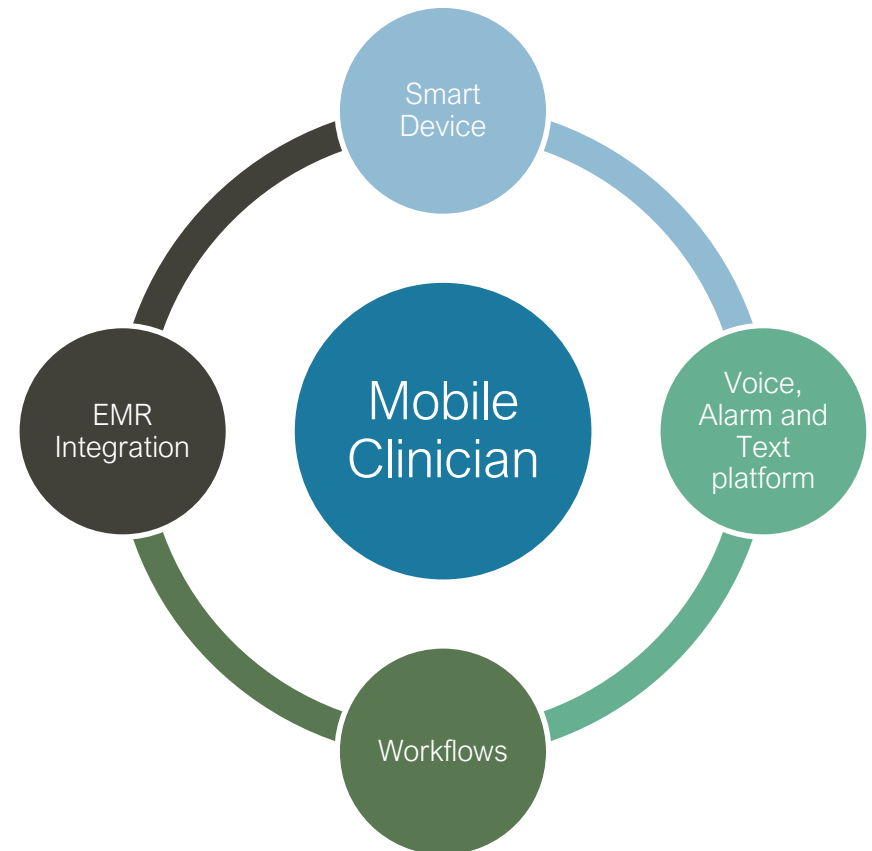

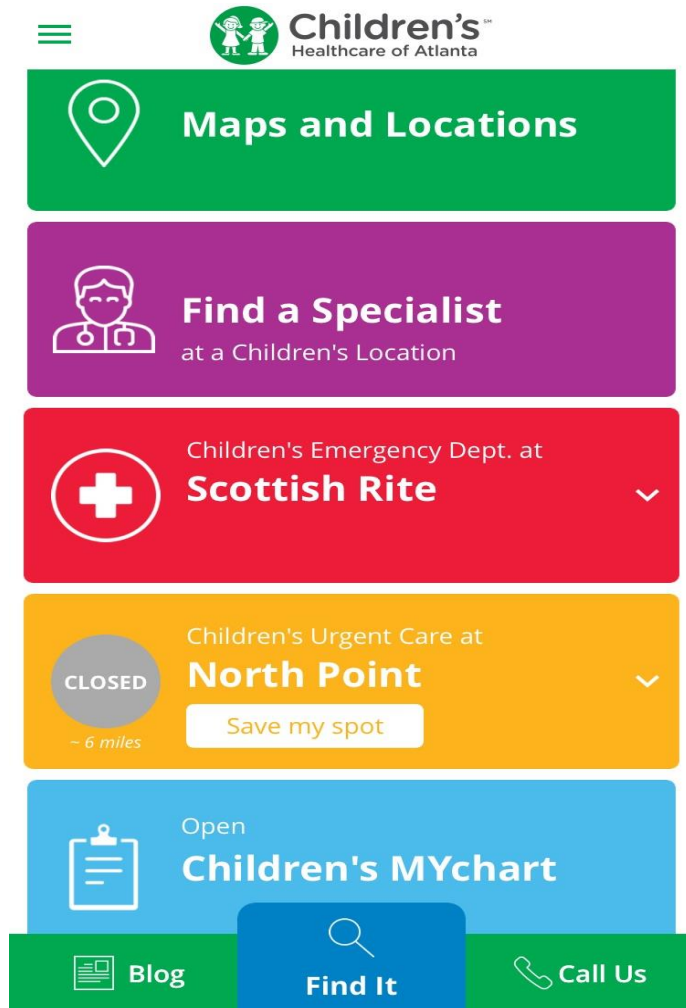

---

# How about Innovation?

---

# How does “Innovation” sound?

# A couple of Children's stories...

# Future Opportunities

---

- Unified Communications
- Leveraging Bot Technology
- Wearables
- Manage by Exceptions
  - Alarms
  - Documentation

# Guiding Principles

---

- Always keep the patient at the center
- Don't innovate for the sake of innovation - Solve a problem
- Make innovation intentional
- Every innovation is big, no matter how small it may be
- Value from an innovation can be instant or sometimes appreciates over time.

# Skills to look for, develop or inspire in the team

---

- Are you someone who challenges Status Quo?
  - Do you think outside the “box”?
  - Or want to or willing to stretch out of your comfort zone?
- Are you curious?
  - Do you wonder why?
  - Do you seek to understand why not?
- Are you resourceful?
  - To conquer hurdles or find alternative path to end goal
- How does failure affect you?
